Arabic

Urdu

Muhammad Ibrahim
Front-End Developer

Front-End Developer with hands-on experience building responsive and user-friendly web interfaces using HTML, CSS, and JavaScript. Trained through practical programs at Aptech and Scrimba, with real-world experience delivering front-end solutions for freelance clients. Focused on clean UI implementation, responsive design, and continuous improvement in modern front-end development.

Experience

2024 - Present
Aptech Learning Pakistan
ACCP-AI – Aptech Certified Computer Professional in Artificial Intelligence
Completed an intensive, career-oriented professional program designed to build strong foundations in full-stack web development and artificial intelligence concepts. The program included hands-on practical training in front-end technologies such as HTML, CSS, and JavaScript, along with exposure to backend fundamentals, databases, and programming logic. Additionally, gained introductory knowledge of artificial intelligence, including basic AI concepts, problem-solving approaches, and an understanding of how AI is applied in modern software systems. Actively worked on practical assignments, labs, and projects to apply theoretical knowledge to real-world scenarios.

2026 - Present
Scrimba & MDN
Completed a structured, self-paced front-end development learning path aligned with the Mozilla MDN curriculum.
Built multiple hands-on projects and solved interactive coding challenges to strengthen practical skills.
Focused on semantic HTML, modern CSS, JavaScript fundamentals, and accessibility best practices.
Gained experience using modern tools such as React and GitHub to build responsive, industry-ready web interfaces.

2025 - 2025
Brainatrix Solutions
Web Developer

Worked on front-end development tasks using HTML, CSS, and JavaScript to build user interfaces.
Assisted in developing and improving responsive layouts across different screen sizes.
Collaborated with team members to understand project requirements and implement UI components.
Gained practical experience following real-world development workflows, code structure, and version control practices.
